

Dental Laboratory Saw Blades

Manufactured from finest quality high carbon steel in .007" and .010" thicknesses for making precise, thin cuts between teeth on working models. Blades will cut any hardness of die stone and epoxy. Pinned blades can be tensioned tightly in dental laboratory saw frames. Plain end blades can be used in standard jewelers saw frames. Blades with holes only in ends are available in both thicknesses.

Tooth Styles

25 TPI Regular style for finer, smoother cuts in all materials.

18.5 TPI Skip tooth style has space between teeth for faster cutting action without clogging of tooth gullet.

OLSON®

Fine Quality Saw Blades Since 1918

Spiral Saw Blades

5" Long, Plain Ends

These blades saw in all directions and have 360° cutting capability. Use for cutting all types of materials including diestone, plastic, wax, non-ferrous metals, gypsum, and wood, etc. For use in hand-held jewelers saw frames. Cutting speed and finish depend on material thickness and number of teeth per inch. These premium blades are made of high carbon steel, hardened and tempered to stay sharp longer.

Univ. No.	Kerf Size	Teeth Per Inch	P/N & Price Dozen	P/N & Price Gross
2/0	.030"	51	SP460DZ \$5.95	SP460GR \$53.43
0	.032"	46	SP461DZ \$5.95	SP461GR \$53.43
2	.035"	41	SP463DZ \$5.95	SP463GR \$53.43
4	.041"	36	SP465DZ \$5.95	SP465GR \$53.43
6	.051"	30	SP467DZ \$5.95	SP467GR \$53.43

• Packed in bags of one dozen or one gross with label.

Dental Lab Saw Frame for Pin End Blades

Chrome-plated steel saw frame with ergonomic handle and offset bow—top of blade is visible while cutting sections of gypsum or die stone models. Holds either 5" (127mm) or 4½" (114mm) pin center blades. Handle turns to adjust tension of blade. Includes two of each of: DN0255P, DN7255P, DN7185P and DN0185P blades.

Item No. SF63535

\$22.58 ea.

Flat End Spiral Saw Blades

5" Long, Plain, Flat Ends

Same blades as at left, but with flat ends for easier blade installation and better retention. Offered in two popular sizes.

Univ. No.	Kerf Size	Teeth Per Inch	P/N & Price Dozen	P/N & Price Gross
2	.035"	41		SP468GR \$65.218
4	.041"	36	SP469DZ \$7.25	SP469GR \$65.21

• Packed in bags of one dozen or one gross with label.

Jeweler's Frames for Spiral and Plain End Saw Blades

Sturdy steel frame and wood handle with end tensioning screw and blade clamps. For use with all spiral and 5¼" plain end blades.

Item No.	Saw Depth	Price Each
SF63523	3"	\$ 24.98
SF63525	5"	\$12.58
